

# CAR RIDERS

## Dismissal Procedure

As you enter the parking lot, continue to the back of the buildings and left behind the Marian Center (gym).

Form two side by side lines beginning at the farthest end of the building.

For the safety of all students and teachers, please turn off engines.

The students will be dismissed to their cars at the same time; when all students are SAFELY in their cars, the teacher on duty will signal that it is safe to leave.

We ask that you do not start your car engine until this signal is given.

We are grateful for your cooperation with this system. The safety of all our students is the primary importance and reason behind this procedure.
